

Course-Level Content Submission for Zero-Textbook Cost Implementation Grants

Thank you for your work to develop zero-textbook cost program pathways for your students, and for being willing to share the outcomes of that development with your colleagues across the state! The Professional Learning Network (PLN) is excited to be the clearinghouse of resources developed by ZTC Grant awardees, so that California's Community Colleges can continue to successfully serve our diverse student population. All files that need to be uploaded can be done through a google drive—simply go to the folder created for [course name, provided by program coordinator, with link to the relevant folder] and upload any files there. Please also fill out the following form, and be sure to note here any files that you have uploaded, so that we can make sure that they are appropriately categorized. Thank you again for your participation; if you have any questions, please feel free to reach out Amanda Estrada at astrada@foundationccc.org!

Name, title, and email for the primary contact for this course (this will be published unless otherwise requested):

Course Number (e.g. PSYCH 1) and Title (e.g. Introduction to Psychology):

Number:
Title:

Please upload a sample course syllabus to the [course name w/ link to google folder] folder.

Primary Textbook Replacement Material(s) (URLs when possible, list and upload files to the google drive as needed):

Supplemental resource(s) such as additional texts, articles, websites, etc. used in the course (URLs when possible, list and upload files to the google drive as needed):

Please note and explain any textbook and/or supplemental resources that are not free OER (e.g. any textbooks that are available and free for your students' use only through your college library):
