

Program-Level Content Submission for Zero-Textbook Cost Implementation Grants

Thank you for your work to develop zero-textbook cost program pathways for your students, and for being willing to share the outcomes of that development with your colleagues across the state! The Professional Learning Network (PLN) is excited to be the clearinghouse of resources developed by ZTC Grant awardees, so that California's Community Colleges can continue to successfully serve our diverse student population. Once we have a list of all of the courses associated with this program, PLN staff will create a folder for each course in your program's [\[link to google drive\]](#), including an information sheet similar to this to be filled out. Links to those information sheets can then be distributed to the relevant course-level contact(s). Thank you again for your participation; if you have any questions, please feel free to reach out to Amanda Estrada at aestrada@foundationccc.org!

Name, title, and email address of the program contact (this will be published):

Program Name:

Program Description (feel free to copy the description from a program webpage, course catalog, etc.):

Courses Associated with this Program (please list, and we will then create a folder in the google drive for each course):

Award Conferred by Program Completion (degree, certificate, etc.)

Program Learning Outcomes (if available):

Special features or other things to note about this program:

Any ideas of what program-level content would be helpful to have shared and isn't requested in the above:
