ISSUE: To implement Senate Bill 1456, the Student Success Act of 2012, by establishing the Student Success and Support Program through proposed changes to California Code of Regulations, title 5, section 55500 et seq.

BACKGROUND: The Student Success Act of 2012, signed by Governor Brown on September 27, 2012, provides a foundation to implement several recommendations from the Student Success Task Force (SSTF). Key recommendations include mandating students to complete core matriculation services, requiring students to declare a course of study early, targeting funds to provide orientation, assessment, and counseling, advising and other student education planning services. The regulations would also rename the former Matriculation program as the Student Success and Support Program.

RECOMMENDED ACTION: The proposed regulations are presented to the Board of Governors for a first reading. The Board of Governors must hold a public hearing for receipt of comments, both written and oral, which are offered concerning the proposed action. It is anticipated that the regulations will be presented to the Board for adoption at its July 2013, meeting.

ANALYSIS: In November 2012, the Chancellor's Office convened implementation workgroups, comprised of key system stakeholders, to develop proposals to implement the provisions of Senate Bill 1456 related to the Student Success and Support Program. The Title 5 policy workgroup was comprised of 18 members, including representatives from the Chief Executive Officers, Chief Student Services Officers, Chief Instructional Officers, Academic Senate for California Community Colleges, Student Senate for California Community Colleges, research, assessment, matriculation, career technical education, and admissions and records. A second workgroup was tasked with reviewing the existing matriculation data elements reported by colleges to determine what, if any, changes would be required, and to develop a new funding proposal that accounted for student population and services provided to allocate Student Success and Support Program funds to the colleges. This 19 member workgroup included most of the aforementioned stakeholder groups and also included representatives from MIS (Banner, Datatel, and Peoplesoft) and the Chief Business Officers. Both workgroups met over the course of 5-6 months to develop proposals to implement the new Student Success and Support Program.

The key changes made to the existing title 5 Matriculation regulations include:

- Renaming the “Matriculation” program as the “Student Success and Support Program.”
- Updating the 20+ year old regulations with the goal of reducing duplication, updating terminology, and improving the clarity and organization of the regulations; and,
- Aligning with the requirements and language in Senate Bill 1456 to:
 - Target funding to the core services of orientation, assessment, counseling, advising, and other education planning services;
 - Address new elements, such as “course of study” and “career goals;” and,
 - Establish policies for requiring students to complete orientation, assessment, and identifying a course of study and developing an education plan.

Information about the proposed credit funding formula is included for the Board’s information (Attachments 2 and 3). As required by Senate Bill 1456, the proposed funding formula includes the following elements:

- Establishes a 40/60 split for the allocation of funds based on headcount enrollment and services provided;
- Provides base funding to ensure a level of funding protection for smaller colleges while at the same time providing a proportionate share of funds for colleges with larger student populations;
- Maintains the existing 3:1 match, while allowing districts to include expenditures for admissions and records, research, and related-technology services as part of the institutional match requirement. This will help districts transition to utilizing general funds to pay for functions formerly but no longer allowable from the categorical allocation.

- Phases in the funding formula changes over a four-year period; the new formula would not be effective for 2013-14 and 2014-15 to allow colleges to make MIS programming changes and ensure accurate and consistent reporting of student data. The new funding formula would be run to generate allocations for 2015-16 (based on 2014-15 data) but districts would have their allocations protected at 80 percent in the first year and 50 percent in 2016-17, delaying full implementation until 2017-18.

This item is presented to the Board of Governors for a first reading. The proposed regulations are included as Attachment 1.

Proposed SB 1456
Student Success and Support Program
Credit Funding Formula
May 6, 2013

Background:

On September 28, 2012, Governor Brown signed Senate Bill 1456, the Student Success Act of 2012, into law. The bill requires the Board of Governors to adopt a new funding formula for the Student Success and Support Program (formerly Matriculation) to allocate funds to colleges. The new law requires the funding formula to include (but not be limited to) the following 3 elements: (1) students to be served; (2) students who received orientation, assessment, counseling/advising, and student education planning services; and, (3) a match requirement.

Beginning November 2012, a 19 member workgroup was convened to review and revise the current MIS data elements reported for matriculation and to develop a new funding formula consistent with SB 1456. The workgroup included a broad representation of system stakeholders: Chief Student Services Officers (2); Matriculation Dean/Coordinators (5); Assessment (1); Chief Instructional Officers (1); Academic Senate for California Community Colleges (2 faculty); Student Senate for California Community Colleges (1); Chief Business Officer (2); Research (2); and MIS (3). The workgroup met over the course of five months and developed a funding formula proposal (described below) using a combination of a general consensus and majority vote decision-making process.

Total State appropriation for the credit Student Success & Support Service Program (formerly Matriculation):

- 40/60 split between headcount & services provided
- Allocations generated by college

Recommended implementation timeline:

- If adopted by the BOG, the new funding formula would be phased in. Colleges' allocations (unless the state's SSSP appropriation increases) would remain the same for 2013-14 and 2014-15 to allow colleges to make any MIS programming changes and ensure accurate and consistent reporting of student data.
- The new funding formula would be run to generate allocations for 2015-16 (based on 2014-15 data).
- The workgroup recommends a phased-in approach when the allocation formula is applied: For the first year, 2015-16, protect colleges at 80 percent of prior year funding; and, for the second year, 2016-17, protect colleges at 50 percent of prior year funding.

Proposed Funding Formula:

**40% College’s Potential
Population of Students to
Receive Services**

60% Students Served at the College

College Match

------------	--	--

Funding Proposal Rationale:

1. Base funding of \$35,000 (or 10 percent, whichever is greater) plus unduplicated credit student headcount provides a level of funding protection for smaller colleges while at the same time providing a proportionate share of funding for colleges with larger student populations.
2. A 40/60 split in the total state credit Student Success and Support Program appropriation provides colleges with a base funding on credit student unduplicated headcount, while creating an incentive for colleges to serve greater numbers of students.
3. For the 60 percent total state credit SSSP appropriation, 30 percent would be specifically be targeted to provide services to new students (initial orientation, initial assessment, and abbreviated SEP- considered one time services).
4. Based on the latest research which highlights the importance of providing core services to students upon entry and ensuring students receive services along their pathway to completion, the funding also targets to the provision of services for continuing students. Given the importance of ensuring students identify a course of study and develop an SEP, a greater weight was placed on the comprehensive SEP (which based on the proposed title 5 regulations would be required by first time students who earn 15 degree-applicable units or before the end of the 3rd term).
5. Pre-enrollment services are also funded under the proposed model as part of the funding targeted for initial orientation, initial assessment, and abbreviated SEPs (for students who were served by the college and applied, but who subsequently did not enroll). This would

incentivize colleges who have programs in place to transition high school seniors to college (early start) to continue to do so.

6. What the funded services include:

- **Initial orientation:** for first time students, can be provided pre or post enrollment (*counted one per student during the student's enrollment at the college*);
- **Initial assessment:** for first time students, can be provided pre or post enrollment (*counted one per student during the student's enrollment at the college*);
- **Abbreviated SEP:** one to two term SEP, can be provided pre or post enrollment (*counted one per student during the student's enrollment at the college*);
- **Counseling/advising:** in person counseling or advising provided to a student or group of students; may be pre-enrollment or post-enrollment;
- **Comprehensive SEP:** a more detailed SEP (not simply a list of classes- a definition is provided in the proposed title 5 regs) that in general is longer than one term; if a student identifies a course of study as they enroll at the college, this SEP can be created prior to or after the student enrolls (based on student needs; may also be needed for participation in certain programs, such as federal financial aid);
- **At risk follow-up services:** Given new state policies where a student may lose enrollment priority or their BOG Fee Waiver for poor academic performance, ensuring students who are on academic or progress probation or facing dismissal, have an opportunity to receive support services is critical—these services may include one on one or group counseling sessions, group workshops, non-apportionment generating tutoring services, student success workshops, etc.
- **Other follow-up services:** This category includes a variety of services and provides a funding mechanism for colleges to continue to provide student supports along the student's educational pathway. This may include subsequent orientations (perhaps based on just-in-time orientations provided at key momentum points), subsequent assessments (career and interest assessments, or assessments tests for re-testing); revision or development of a new SEP (beyond the first abbreviated and comprehensive SEP—if the student changes their course of study, or other changes that may necessitate a revised or new comprehensive SEP); student success workshops, etc.
