Title: Student Success Goal Setting

Date: June 19, 2014

Contact: Patrick Perry, Vice Chancellor
Technology, Research and Information Systems

Information

The impetus for setting system performance goals comes primarily from three sources:

- Student Success Task Force
- 14-15 Trailer Bill Language
- SB195 (Liu, 2013)

Development of system goals has been an ongoing process:

- BOG Retreat (March, 2013)
- Consultation Council (November 2013 and February 2014)
- Scorecard Advisory Committee (January 2014)
- BOG (first reading, informational), March 2014
- Scorecard Advisory Committee (May 2014)

The last Scorecard Advisory Committee came to some conclusions about establishing a primary operating framework for system goals:

- Use Scorecard Rates as the primary metrics; do not create a new set of volume-metrics to set goals on.
- Use intermediate points (3, 4, and 5 year points) to measure progress of 6-year Scorecard Rate cohorts
- Allow for some specific targeted area goals, including:
  - AB1440 Degrees
  - Student Ed Plans
  - Equity
  - Access
- Allow local campuses to set their own local targets based on their unique missions and community needs.

System Goals will be presented for final approval at the July, 2014 BOG meeting; this is an update to consultation on how these will be established and monitored.
