Chancellor’s Office Curriculum Inventory

Two separate databases: MIS and Curriculum

• A program/course is submitted to Curriculum for approval: new, modification, correction, etc.
• The length of time for the approval by Curriculum staff varies by the type of approval request.
• When the program/course is approved the curriculum data are sent to the MIS database.
• There are edit checks for the data upload. Records that do not pass the edits are rejected by the MIS database and an error report is sent to Curriculum. Errors must be corrected and the program/course records sent again to MIS for upload. This continues until the errors are resolved.
• Public Search Tool - Active Courses and Programs http://curriculum.cccco.edu

**Special Population – Retention/Success Query**

![Screenshot of the Management Information Systems Data Mart](image)

The screenshot shows a data mart interface for the California Community Colleges Chancellor's Office. The interface includes options for selecting various parameters such as state, district, college, term, program type, instruction method, and DE inst. method. There is a section labeled "Credit Course Retention/Success Rate Summary Report - Parameter Selection Area" with fields for selection and a "View Report" button. Below this, there are options to export the report in Excel, CSV, or Text format, and to select records per page and layout preferences.

The data table at the bottom of the screenshot includes columns for Enrollment Count, Retention Count, Success Count, Retention Rate, and Success Rate. The table also includes a "Grand Total" row. 

The image highlights the option "Retention/Success for Special Population/Group, please click here."
