Related & Supplemental Instruction (RSI)

The preparation of trade analyses and development of curriculum for instruction, and the administration and supervision of related and supplemental instruction for apprentices, coordination of instruction with job experiences, and the selection and training of teachers and coordinators for this instruction shall be the responsibility of, and shall be provided by, state and local boards responsible for vocational education upon agreement with the program sponsor. This responsibility shall not preclude the establishment of off-campus related and supplemental instruction when approved, developed, and operated in cooperation with state and local school boards responsible for vocational education, and when the instruction meets all other requirements of this chapter. It is the intent of this chapter that the instruction shall be made available to apprentices through classroom instruction, correspondence courses, self-study or other means of instruction approved by state and local public education agencies authorized to provide vocational education.

Pursuant to this chapter all excess costs incurred by local public education agencies exceeding state apportionments and local revenue earned by the attendance of apprentices shall be payable by the program sponsor, upon joint agreement between the sponsor and the local education agency. The State Board of Education and the Board of Governors of the California Community Colleges, and the Division of Apprenticeship Standards shall jointly issue regulations regarding calculation and payment provisions of excess costs to be borne by the program sponsors. All funds accrued by local education agencies from attendance in apprenticeship classes authorized by this section shall be expended or allocated for all such classes offered by the local education agency before excess costs may be claimed.

The Department of Education and the Board of Governors of the California Community Colleges may provide related and supplemental instruction to isolated apprentices as a direct instructional service, on a contractual basis with local school districts, by correspondence, or by a combination of these means. For the purpose of this section, an isolated apprentice is an apprentice registered with the Division of Apprenticeship Standards in the Department of Industrial Relations who cannot be enrolled in a class of related and supplementary instruction for apprentices because of the small number of apprentices available for an appropriate class or because there is no existing apprenticeship program within a reasonable travel distance.

Excess Cost Class

Interested parties may file a complaint in accordance with Section 201 of Title 8 of the Administrative Code, when a community college or secondary education district is unable to reach agreement with program sponsors in providing related and supplemental instruction. In the process of securing an amicable adjustment, the administrator, or his or her representative, shall meet with the parties involved, including, but not limited to, the chancellor, or his or her representative, or the Superintendent of Public Instruction, or his or her representative.

Community colleges, and other public school districts, shall refuse to provide related and supplemental instruction to an apprenticeship program when it is determined by the Administrator of Apprenticeship that the program sponsor has been found to be in noncompliance with the State of California Plan for Equal Opportunity in Apprenticeship.
