Discussion on Prerequisites, Co-requisites and Advisories: by Jane Patton

Jane Patton, President of the Academic Senate discussed the changes to the title 5 regulations regarding prerequisites with the Consultation Council. She reviewed the changes to the regulations that were added since they came before the Consultation Council in April 2010.

There was consensus in Consultation Council to bring this item forward to the Board, but there wasn't consensus in support of the proposed change.

Full Time Faculty Obligation Number: by Erik Skinner

Executive Vice Chancellor Erik Skinner discussed this item with the Consultation Council. This item is going to the Board as a first reading at the January 2011 meeting. Executive Vice Chancellor Skinner explained that this item is being brought forward by San Mateo CCD because of the passage of a parcel tax. The passage of the tax raised questions on how the new tax revenue would interact with full-time faculty regulations. It was explained that because the tax is for a specific period of time, districts shouldn't commit resources to on-going faculty if the money they are isn't permanent. Faculty groups expressed significant concerns.

Consultation Council could not reach a consensus on this item.
